**35 U.S.C. §102 Rejection*****Tanguay***

The Examiner has rejected various claims under 35 U.S.C. §102 (b) as being anticipated by Tanguay, U.S. Patent No. 5,946,488 ("Tanguay"). Claim 1 has been amended to refer to respective token objects for each token, "said token object including a visibility variable to represent whether a parser and an output module may view the respective token." The recitations related to parsing and outputting have been amended to relate to the token object. The prior amendments regarding writing tokens have been reversed.

The token objects are shown and described in the present invention with reference to Figure 5. There is no corresponding token object in Tanguay. Accordingly, Claims 1-6 are believed to be allowable over the reference. Claims 7, 10, 16, 18 and 22 have been similarly amended.

The new claims refer to similar elements and are believed to be allowable on similar grounds.

**35 U.S.C. §103 Rejection*****Tanguay in view of Beausang***

The Examiner has rejected other claims under 35 U.S.C. §103 (a) as being unpatentable over Tanguay in view of Beausang et al., U.S. Patent No. 5,903,466 ("Beausang"). Tanguay et al. Beausang does not teach or suggest the token object limitations discussed above and accordingly the claims are also believed to be allowable over the cited combination.

Applicant respectfully submits that the rejections have been overcome by the amendment and remark, and that the claims as amended are now in condition for allowance. Accordingly, Applicant respectfully requests the rejections be withdrawn and the claims as amended be allowed.
